INTERNSHIP

Salesforce Developer Internship (Nov 2023 – Dec 2023)

- Developed and customized applications using Apex, Lightning Web Components (LWC), and SOQL.
- Implemented CRUD operations, validation rules, and automation processes using Flow & Process Builder.
- Built a custom case management system to track and resolve customer queries efficiently.
- Integrated Salesforce APIs to enhance data exchange and system interoperability.

PROJECTS

React Notes App

- Developed a full-stack note-taking application using React, HTML, CSS, and JavaScript.
- Implemented local storage for data persistence to ensure seamless user experience.
- GitHub: <https://github.com/pavuluriaswini/notes-app>

Chatbot Application

- Built an interactive chatbot using JavaScript and Node.js, implementing interactive functionalities and server-side scripting.
- Integrated data handling from JSON files and optimized static file serving with Express.js for efficient performance.
- GitHub: <https://github.com/pavuluriaswini/chatbotapplication>

CERTIFICATIONS

- Udemy Certification: The Complete 2024 Web Development Bootcamp
- Postman API Student Expert
- NPTEL Certification: Cloud Computing
- LinkedIn Learning: Agile Methodologies
- Fundamentals of Artificial Intelligence from IBM SkillsBuild
